Quality Training and Products For Well Behaved Poach.

Puppy Board and Train Programs

The most effective, fast paced option available to train your dog is Board and Train. Your dog would come to live with myself (owner & trainer, Justine) and my family in our home for the most intensive part of its training. Every dog who comes to stay with me is treated as one of my own. While there is lots of training and work that gets done there is also plenty of snuggles, play time and rest. Enjoy peace of mind knowing that I will do all the hard work and your dog will be happy and well cared for.

Whether your pup knows it or not he will be training every minute that he is with me. While we will have structured training sessions a minimum of five times per day he will also be learning when we aren't officially training. He will learn appropriate play, bite inhibition (how to have a soft mouth), and how to be a calm relaxed puppy when playtime is over.

Note: I only take one board and train dog at a time. The dog lives inside as a member of my family – there is no better way to develop a well-rounded family dog.

Promise of Results: I, Justine Ramey, promise to do everything within my power to attain the goals set during the consultation within the allotted time. I promise that your dog will be properly cared for in a loving, indoor environment for the duration of its stay. I promise that upon the return of your dog you will notice a significant reduction in problem behaviors. I promise that your dog will understand and perform basic obedience commands without coercion. I promise that if you need my assistance I will be there for you, whether it's 4 weeks or 4 years after your dog goes home. I promise that if a problem arises I will give advice over phone or email to help resolve the problem. If the issue continues I will come to your house and give another lesson until the issue is resolved. *** For me to keep this promise you must attend all lessons and adhere to my advice. I do the hard work to teach the behaviors, you must do the work to maintain the behaviors.*

Raising a puppy can be very hard work. Puppies need to be properly trained early in life to avoid future behavioral problems. Socialization is one of the most important aspects of puppy raising. Due to the busy lives we lead many people just don't have the time to properly socialize their puppy. Lack of socialization can lead to several behavioral issues including aggression, reactivity and fear. While your pup is with me I will work to ensure that (s)he is properly socialized in only safe environments. I will expose him to several kinds of people, dogs, floor textures, noises and visual stimulation; anything he may encounter in his life as a family dog. → Socialization never ends. Please continue socializing your dog.

Housetraining is another common issue for busy people raising a puppy. While your puppy is with me I will teach him to ring a bell to indicate that he needs to potty and will teach him how to potty on cue.

NOTE: It takes 21 days to form a habit! Please keep this in mind when choosing a program. I start the work, but it is up to you to maintain what I have taught.

NOTE: No matter the training, your puppy will need to be tightly supervised until at least 6 months

PUPPY PRIMER PROGRAM **$1400** **All programs customizable

This program includes two weeks of intensive Board and Train to jumpstart your puppy's education. Justine will work with your dog to teach basic manners, develop appropriate behaviors and discourage common problem behaviors. This is the program for you if you need a little help to get started on your dog's training. This program will have your puppy jumpstarted on housebreaking, socialization and basic manners. Again, it takes a minimum of 21 days to form a habit. So, while this program will be infinitely beneficial to your puppy's social and mental development you (the owner) will need the continue working with your puppy to form the habit.

Included in Puppy Primer Program:

1. 2 Weeks intensive training in the trainer's home with her pack
2. 4 In Home Private Training Sessions – at pick up, midpoint, drop off and one follow up
3. Homework and relevant articles for each training session
